

07-02-2020

We cognize the aspirations of our society and thus, follow explicitly and implicitly value based education synchronised with the religious ethics. This unique feature of Escola is the resultant of the strong leadership and guidance of eminent scholars and educators who are well known globally. To develop this further, and for the expansion in the next academic year, we invite applications from like-minded educators. For all the posts, a good command on English and a minimum of three years' experience in a college or HSS besides, the minimum qualification PG+B.Ed (M.Phil, Ph.D. desirable) are mandatory.

A global work culture, good standard of remuneration and ample growth opportunities are awaiting every new educator.
